

Function First Pediatrics Inc.

provides services to children and their families utilizing a team-based approach. Our professionals focus on the latest evidence-based strategies to support children in a number of diverse settings.

*We are seeking an exceptional
Occupational Therapist
to join our team*

Why Consider this Position:

- Function First Pediatrics is the only multidisciplinary private practice north of Edmonton and is constantly growing.
- Grande Prairie is a vibrant and economically stable city with a young population and many activities to do.
- This job offers flexibility, a fun and enthusiastic team and a feeling of fulfillment.
- Function First Pediatrics strives to support its employees to meet their professional goals.

Duties:

- Assess, consult and recommend strategies to support a range of needs in the pediatric population.
- Provide direct therapy using a play-based approach.
- Develop goals and strategies in collaboration with other team members based on family priorities.
- Build capacity in families and supervise assistants who carry out programming.
- Support children with a multitude of needs including: motor, sensory, perceptual, and mental health.

Qualifications:

- Successful completion of an entry to practice occupational therapy program.
- Bachelor or Master's degree in Occupational Therapy.
- The successful applicant must be registered with the Alberta College of Occupational Therapists (ACOT).
- Highly professional, energetic and motivated.
- Interested in advancing their skills in working with children with a variety of special needs.
- Has a valid driver's license, access to a vehicle and is willing to travel.
- Fluent in French and English.

Salary:

- We offer a very competitive salary and benefit package.
- Financially supported professional learning opportunities.
- Relocation expenses.

Contact Information:

Submit resumes to elyne@functionfirst.ca. Only candidates under consideration will be contacted. Closing date April 15th, 2019
