

Dear Potential Sponsor of Function First Pediatric Summer Camp,

For the past couple of summers, Function First Pediatrics has put on a therapeutic overnight camp at Camp Tamarack for children ages 8 & older who have special needs. The camp offers children the opportunity to sleep somewhere other than home for one night, which for some children is very challenging. Most regular camps require children to stay 5 or more nights. Our camp offers a regular camp routine with therapeutic activities built in which helps our campers have a successful stay.

This year the camp will run August 26th and 27th. Through the support of Camp Tamarack and our staff graciously volunteering their time we are able to keep the costs as low as possible however, for some families it is still unaffordable. We are asking for your support in helping us provide this great opportunity and a chance to make wonderful memories for the kids.

Any sponsorship received will go towards a) lowering the registration fee, b) paying a child's registration fee or c) providing campers with special activities or items.

For some of the families, your support is the only way for their child to experience an overnight camp. In return for your support, a sponsorship receipt will be issued as well as advertising on Function First's social media pages and website.

If you are able to sponsor, please complete the needed information below and return to:

Function First Pediatrics, Suite 101 - 8715 109 St, Grande Prairie, AB, T8V 8H7

Please make cheques payable to Function First Pediatrics (re: sponsorship)

Thank you so much for your generous support!

Sincerely,

The Function First Team
